| Product Description        | Human LOXL2 ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human LOXL2 in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 37.5-2400 pg/ml                                                                                                                                                                                                          |
| Sensitivity                | 22.5 pg/ml                                                                                                                                                                                                               |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                          |
| Target                     | LOXL2                                                                                                                                                                                                                    |
