| Species Reactivity         | Mouse                                                                                                                                                                                                                          |
| Product Description        | Mouse Arginase ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of mouse Arginase in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 0.781-50 ng/ml                                                                                                                                                                                                                 |
| Sensitivity                | 0.469 ng/ml                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                                |
| Target                     | Arginase                                                                                                                                                                                                                       |
