| Product Description        | Human dUTPase ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of human dUTPase in serum, plasma, tissue homogenates, and other biological fluids.... |
| Range                      | 0.156-10 ng/ml                                                                                                                                                                                                               |
| Sensitivity                | 0.094 ng/ml                                                                                                                                                                                                                  |
| Samples                    | Serum, plasma, tissue homogenates, and other biological fluids.                                                                                                                                                              |
| Target                     | dUTPase                                                                                                                                                                                                                      |
