| Species Reactivity         | Bovine                                                                                                                                                                                                      |
| Product Description        | Bovine FSH beta ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of bovine FSH beta in serum, plasma and other biological fluids.... |
| Range                      | 0.781-50 ng/ml                                                                                                                                                                                              |
| Sensitivity                | 0.25 ng/ml                                                                                                                                                                                                  |
| Samples                    | Serum, plasma and other biological fluids.                                                                                                                                                                  |
| Target                     | FSH beta                                                                                                                                                                                                    |
