| Category                   | Kits/Assays                                                                                                                                                                                           |
| Application                | ELISA                                                                                                                                                                                                 |
| Species Reactivity         | Human                                                                                                                                                                                                 |
| Product Description        | Human TGF beta Receptor II ELISA Kit is a Sandwich Enzyme-Linked Immunosorbent Assay designed for the indirect in vitro quantitative determination of TGFBR2 levels in plasma, serum, and lysates.... |
| Range                      | 16-1000 pg/ml                                                                                                                                                                                         |
| Samples                    | Plasma, serum, and lysates.                                                                                                                                                                           |
| Target                     | TGFBR2                                                                                                                                                                                                |
