| Product Description        | BDP TR is a bright borondipyrromethene dye for ROX channel. Unlike ROX, it is very stable to oxidation. This amine derivative is useful for the conjugation with electrophilic reagents like epoxides and activated carboxyl derivatives, and as well for ... |
| Molecular Weight           | 558.88 kDa                                                                                                                                                                                                                                                    |
| Purity                     | 95% (by <sup>1</sup> H NMR and HPLC-MS).                                                                                                                                                                                                                      |
| Form                       | Dark colored solid.                                                                                                                                                                                                                                           |
