| Manufacturer               | Antibodies.com                                                                                                                              |
| Category                   | Biochemikalien                                                                                                                              |
| Product Description        | FAM (fluorescein) azide. solid and 10 mM solution in DMSO, labeling reagent for Click chemistry. Pure 6-isomer. Can replace DyLight 488.... |
| Molecular Weight           | 458.42 kDa                                                                                                                                  |
| Purity                     | 95% (by <sup>1</sup> H NMR and HPLC-MS).                                                                                                    |
| Form                       | Yellowish crystals.                                                                                                                         |
| CAS Number                 | [1386385-76-7]                                                                                                                              |
| Formula                    | C <sub>24</sub> H <sub>18</sub> N <sub>4</sub> O <sub>6</sub>                                                                               |
