| Product Description        | Rat Luteinizing Hormone ELISA Kit is a competitive Enzyme-Linked Immunosorbent Assay (cELISA) designed for the in vitro quantitative determination of rat Luteinizing Hormone in serum, plasma or other biological fluids.... |
| Range                      | 0.468-30 ng/ml                                                                                                                                                                                                                |
| Sensitivity                | 0.14 ng/ml                                                                                                                                                                                                                    |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                                                     |
| Target                     | Luteinizing Hormone                                                                                                                                                                                                           |
