| Host                       | Human                                                                                                    |
| Category                   | Antikörper                                                                                               |
| Application                | ELISA, FA, FACS, Kinetics                                                                                |
| Species Reactivity         | Virus                                                                                                    |
| Conjugation                | Unconjugated                                                                                             |
| Product Description        | Recombinant human monoclonal [P16-A3] antibody to SARS-CoV-2 Spike RBD....                               |
| Clonality                  | Monoclonal                                                                                               |
| Concentration              | Reconstitution dependent.                                                                                |
| Clone Designation          | [P16-A3]                                                                                                 |
| Molecular Weight           | This antibody has a predicted MW of 145.5 kDa.                                                           |
| Buffer                     | Lyophilized from 25mM Histadine, pH 6.2, with 8% Sucrose and 0.01% Tween80.                              |

|                   |                      |
|-------------------|----------------------|
| Expression System | CHO cells            |
| Purity            | > 95% (by SDS-PAGE). |
| Form              | Lyophilized          |
| Target            | SARS-CoV-2 Spike RBD |
| Antibody Type     | Primary Antibody     |
