| Product Description        | Mouse Apelin 13 ELISA Kit is a competitive Enzyme-Linked Immunosorbent Assay (cELISA) designed for the in vitro quantitative determination of mouse Apelin 13 in serum, plasma or other biological fluids.... |
| Range                      | 15.6-1000 pg/ml                                                                                                                                                                                               |
| Sensitivity                | 3.9 pg/ml                                                                                                                                                                                                     |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                                     |
| Target                     | Apelin 13                                                                                                                                                                                                     |
