| Product Description        | Mouse Urocortin ELISA Kit is a sandwich Enzyme-Linked Immunosorbent Assay (sELISA) designed for the in vitro quantitative determination of mouse Urocortin in serum, plasma or other biological fluids.... |
| Range                      | 15.6-1000 pg/ml                                                                                                                                                                                            |
| Sensitivity                | 4.35 pg/ml                                                                                                                                                                                                 |
| Samples                    | Serum, plasma or other biological fluids.                                                                                                                                                                  |
| Target                     | Urocortin                                                                                                                                                                                                  |
