| Immunogen                  | Cys17~Asp137                                                                                                                                                                                                                                                  |
| Product Description        | The Transmembrane Protein 27 (TMEM27) Monoclonal Antibody is applicable for the following applications: WB, IHC, ICC, IP. Host: Mouse. Species Reactivity: Human (Homo sapiens). Immunogen: Cys17~Asp137. Accession Number: Q9HBJ8. Gene ID: 57393. Target... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 1mg/ml                                                                                                                                                                                                                                                        |
| NCBI                       | <a href="#">57393</a>                                                                                                                                                                                                                                         |
| Buffer                     | 0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol                                                                                                                                                                                                  |
