| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Prokaryotic Rat Endostatin is a purified Prokaryotic Protein. Purity: >97% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Rat. Target Name: Endostatin. Accession Number: Q9WUW5. Tag Info: N-terminal His Tag. ... |
| Tag                        | N-Terminal His Tag                                                                                                                                                                                                                                            |
| Buffer                     | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System          | Prokaryotic expression                                                                                                                                                                                                                                        |
| Purity                     | >97% by SDS-PAGE                                                                                                                                                                                                                                              |
| Form                       | Freeze-dried powder                                                                                                                                                                                                                                           |
