| Product Description        | Eukaryotic Mouse Complement Component 5a is a purified Eukaryotic Protein. Purity: >90% by SDS-PAGE. Host: 293F cell. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Mouse (Mus musculus). Target Name: Complement Component 5a. Accession N... |
| Molecular Weight           | 39/40kDa                                                                                                                                                                                                                                                      |
| Tag                        | N-Terminal His Tag and C-Terminal Fc Region of Human IgG1                                                                                                                                                                                                     |
| NCBI                       | <a href="#">15139</a>                                                                                                                                                                                                                                         |
| Buffer                     | PBS, pH7.4, containing 0.01% SKL, 1mM DTT, 5% Trehalose and Proclin300.                                                                                                                                                                                       |
| Expression System          | Eukaryotic expression                                                                                                                                                                                                                                         |
