| Product Description        | This Human Apolipoprotein B (APOB) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids.... |
| Range                      | 12.5-800pg/mL                                                                                                                                                                                                                         |
| Sensitivity                | 5.9pg/mL                                                                                                                                                                                                                              |
| NCBI                       | <a href="#">230899</a>                                                                                                                                                                                                                |
| UniProt                    | <a href="#">P05125</a>                                                                                                                                                                                                                |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids.                                                                                                                               |
| Application Notes          | Assay Length: 4.5 hours .Experimental Method: Sandwich                                                                                                                                                                                |
