| Category                   | Kits/Assays                                                                                                                                                              |
| Species Reactivity         | Human                                                                                                                                                                    |
| Product Description        | This Human Apolipoprotein H (APOH) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma and other biological fluids.... |
| Range                      | 0.312-20ng/mL                                                                                                                                                            |
| Sensitivity                | 0.144ng/mL                                                                                                                                                               |
| NCBI                       | <a href="#">350</a>                                                                                                                                                      |
| UniProt                    | <a href="#">P02749</a>                                                                                                                                                   |
| Samples                    | serum, plasma and other biological fluids.                                                                                                                               |
| Application Notes          | Assay Length: 4.5 hours .Experimental Method: Sandwich                                                                                                                   |
