| Category                   | Kits/Assays                                                                                                                                                                                      |
| Species Reactivity         | Human                                                                                                                                                                                            |
| Product Description        | This Human Eosinophil Peroxidase (EPX) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids.... |
| Range                      | 1.25-80ng/mL                                                                                                                                                                                     |
| Sensitivity                | 0.51ng/mL                                                                                                                                                                                        |
| NCBI                       | <a href="#">8288</a>                                                                                                                                                                             |
| UniProt                    | <a href="#">P11678</a>                                                                                                                                                                           |
| Samples                    | serum, plasma, tissue homogenates and other biological fluids.                                                                                                                                   |
| Application Notes          | Assay Length: 4.5 hours .Experimental Method: Sandwich                                                                                                                                           |
