| Category                   | Kits/Assays                                                                                                                                                                                                                                  |
| Application                | ELISA                                                                                                                                                                                                                                        |
| Species Reactivity         | Goat                                                                                                                                                                                                                                         |
| Product Description        | This Goat Interleukin 2 (IL2) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 15.6-1000pg/mL                                                                                                                                                                                                                               |
| Sensitivity                | 6.9pg/mL                                                                                                                                                                                                                                     |
