| Product Description        | This Mouse IQ Motif Containing GTPase Activating Protein 2 (IQGAP2) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                                  |
| Sensitivity                | 0.062ng/mL                                                                                                                                                                                                     |
| NCBI                       | <a href="#">544963</a>                                                                                                                                                                                         |
| UniProt                    | <a href="#">Q3UQ44</a>                                                                                                                                                                                         |
| Samples                    | tissue homogenates and other biological fluids.                                                                                                                                                                |
| Application Notes          | Assay Length: 4.5 hours .Experimental Method: Sandwich                                                                                                                                                         |
