| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | This Human Killer Cell Immunoglobulin Like Receptor 2DS4 (KIR2DS4) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates, cell lysates, cell culture supernatants and other biological f... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.055ng/mL                                                                                                                                                                                                                                                    |
| NCBI                       | <a href="#">384061</a>                                                                                                                                                                                                                                        |
| UniProt                    | <a href="#">Q8K4Z2</a>                                                                                                                                                                                                                                        |
| Samples                    | tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                                       |
| Target                     | Human Killer Cell Immunoglobulin Like Receptor 2DS4 (KIR2DS4)                                                                                                                                                                                                 |

Application Notes

Assay Length: 4.5 hours. Experimental Method: Sandwich
