| Product Description        | This Mouse Kisspeptin 1 (KISS1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids . This product... |
| Range                      | 15.625-1000pg/mL                                                                                                                                                                                                                                              |
| Sensitivity                | 4.46pg/mL                                                                                                                                                                                                                                                     |
