| Species Reactivity         | Human                                                                                                                                                                                               |
| Product Description        | This Human Minichromosome Maintenance Deficient 5 (MCM5) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                       |
| Sensitivity                | 0.053ng/mL                                                                                                                                                                                          |
| NCBI                       | <a href="#">3066</a>                                                                                                                                                                                |
| UniProt                    | <a href="#">Q92769</a>                                                                                                                                                                              |
| Samples                    | tissue homogenates and other biological fluids.                                                                                                                                                     |
| Application Notes          | Assay Length: 4.5 hours .Experimental Method: Sandwich                                                                                                                                              |
