| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | This Human Malate Dehydrogenase 1 (MDH1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids . Thi... |
| Range                      | 78.125-5000pg/mL                                                                                                                                                                                                                                              |
| Sensitivity                | 27pg/mL                                                                                                                                                                                                                                                       |
| NCBI                       | <a href="#">3081</a>                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q93099</a>                                                                                                                                                                                                                                        |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target                     | Human Malate Dehydrogenase 1 (MDH1)                                                                                                                                                                                                                           |
| Application Notes          | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                        |
