| Product Description        | This Rat Neurotensin (NT) ELISA Kit is a precoated, Competitive Inhibition ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids . This... |
| Range                      | 4.687-300pmol/L                                                                                                                                                                                                                                               |
| Sensitivity                | 1.3pmol/L                                                                                                                                                                                                                                                     |
| NCBI                       | <a href="#">299757</a>                                                                                                                                                                                                                                        |
| UniProt                    | <a href="#">P20068</a>                                                                                                                                                                                                                                        |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target                     | Rat Neurotensin (NT)                                                                                                                                                                                                                                          |

Application Notes

Assay Length: 4.5 hours. Experimental Method: Competitive Inhibition
