| Product Description        | This Rat Nucleobindin 1 (NUCB1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                                                   |
| Sensitivity                | 0.063ng/mL                                                                                                                                                                                                                      |
| NCBI                       | <a href="#">9314</a>                                                                                                                                                                                                            |
