| Category                   | Kits/Assays                                                                                                                                                                                                                  |
| Application                | ELISA                                                                                                                                                                                                                        |
| Species Reactivity         | Human                                                                                                                                                                                                                        |
| Product Description        | This Human Nucleobindin 2 (NUCB2) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma and other biological fluids . This product is for Research Use Only.... |
| Range                      | 31.25-2000pg/mL                                                                                                                                                                                                              |
| Sensitivity                | 13.8pg/mL                                                                                                                                                                                                                    |
| NCBI                       | <a href="#">688</a>                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q13887</a>                                                                                                                                                                                                       |
| Samples                    | serum, plasma and other biological fluids                                                                                                                                                                                    |
| Target                     | Human Nucleobindin 2 (NUCB2)                                                                                                                                                                                                 |
| Application Notes          | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                       |
