| Product Description        | This Human Calmodulin Like Protein 5 (CALML5) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                          |
| Sensitivity                | 0.054ng/mL                                                                                                                                                                                             |
| NCBI                       | <a href="#">54829</a>                                                                                                                                                                                  |
| UniProt                    | <a href="#">Q9BXN1</a>                                                                                                                                                                                 |
| Samples                    | tissue homogenates, cell lysates and other biological fluids.                                                                                                                                          |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                                    |
