| Product Description        | This Rat Caveolin 1 (CAV1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma and other biological fluids . This product is for Research Use Only.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                                         |
| Sensitivity                | 0.055ng/mL                                                                                                                                                                                                            |
| NCBI                       | <a href="#">25404</a>                                                                                                                                                                                                 |
| UniProt                    | <a href="#">P41350</a>                                                                                                                                                                                                |
| Samples                    | serum, plasma and other biological fluids                                                                                                                                                                             |
| Target                     | Rat Caveolin 1 (CAV1)                                                                                                                                                                                                 |
| Application Notes          | Assay Length: 3 hours. Experimental Method: Sandwich                                                                                                                                                                  |
