| Category                   | Kits/Assays                                                                                                                                                                           |
| Species Reactivity         | Mouse                                                                                                                                                                                 |
| Product Description        | This Mouse Ferroportin (FPN) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                         |
| Sensitivity                | 0.055ng/mL                                                                                                                                                                            |
| NCBI                       | <a href="#">2169</a>                                                                                                                                                                  |
| UniProt                    | <a href="#">P12104</a>                                                                                                                                                                |
| Samples                    | tissue homogenates, cell lysates and other biological fluids.                                                                                                                         |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                   |
