| Category                   | Kits/Assays                                                                                                                                                        |
| Species Reactivity         | Mouse                                                                                                                                                              |
| Product Description        | This Mouse Fusion (FUS) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                      |
| Sensitivity                | 0.042ng/mL                                                                                                                                                         |
| NCBI                       | <a href="#">355</a>                                                                                                                                                |
| UniProt                    | <a href="#">P25445</a>                                                                                                                                             |
| Samples                    | tissue homogenates and other biological fluids.                                                                                                                    |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                |
