| Product Description        | This Human Heat Shock Protein 47 (HSP47) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates and other biological fluids . This product is for Research U... |
| Range                      | 125-8000pg/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 45.3pg/mL                                                                                                                                                                                                                                                     |
