| Category                   | Kits/Assays                                                                                                                                                                               |
| Species Reactivity         | Human                                                                                                                                                                                     |
| Product Description        | This Human Lipoprotein, a (Lpa) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids.... |
| Range                      | 0.234-15ng/mL                                                                                                                                                                             |
| Sensitivity                | 0.09ng/mL                                                                                                                                                                                 |
| NCBI                       | <a href="#">3897</a>                                                                                                                                                                      |
| UniProt                    | <a href="#">P32004</a>                                                                                                                                                                    |
| Samples                    | serum, plasma, tissue homogenates and other biological fluids.                                                                                                                            |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                       |
