| Category                   | Kits/Assays                                                                                                                                                             |
| Species Reactivity         | Equine                                                                                                                                                                  |
| Product Description        | This Equine Myeloperoxidase (MPO) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma and other biological fluids.... |
| Range                      | 3.12-200ng/mL                                                                                                                                                           |
| Sensitivity                | 1.36ng/mL                                                                                                                                                               |
| NCBI                       | <a href="#">25332</a>                                                                                                                                                   |
| UniProt                    | <a href="#">P24528</a>                                                                                                                                                  |
| Samples                    | serum, plasma and other biological fluids.                                                                                                                              |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                     |
