| Product Description        | This Human Methionine Sulfoxide Reductase A (MSRA) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids.... |
| Range                      | 0.156-10ng/mL                                                                                                                                                                                               |
| Sensitivity                | 0.069ng/mL                                                                                                                                                                                                  |
| NCBI                       | <a href="#">414347</a>                                                                                                                                                                                      |
| UniProt                    | <a href="#">Q17QA1</a>                                                                                                                                                                                      |
| Samples                    | tissue homogenates, cell lysates and other biological fluids.                                                                                                                                               |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                                         |
