| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | This Human Microsomal Triglyceride Transfer Protein (MTTP) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids . This product is for Researc... |
| Range                      | 78.1-5000pg/mL                                                                                                                                                                                                                                                |
| Sensitivity                | 36pg/mL                                                                                                                                                                                                                                                       |
| NCBI                       | <a href="#">23531</a>                                                                                                                                                                                                                                         |
| UniProt                    | <a href="#">Q15546</a>                                                                                                                                                                                                                                        |
| Samples                    | tissue homogenates, cell lysates and other biological fluids                                                                                                                                                                                                  |
| Target                     | Human Microsomal Triglyceride Transfer Protein (MTTP)                                                                                                                                                                                                         |
| Application Notes          | Assay Length: 3 hours. Experimental Method: Sandwich                                                                                                                                                                                                          |
