| Category                   | Kits/Assays                                                                                                                                                                                                                                   |
| Application                | ELISA                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                         |
| Product Description        | This Human Neuropeptide Y Receptor Y1 (NPY1R) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 0.312-20ng/mL                                                                                                                                                                                                                                 |
| Sensitivity                | 0.122ng/mL                                                                                                                                                                                                                                    |
| NCBI                       | <a href="#">63974</a>                                                                                                                                                                                                                         |
