| Category                   | Kits/Assays                                                                                                                                                                                                                                                |
| Application                | ELISA                                                                                                                                                                                                                                                      |
| Species Reactivity         | Human                                                                                                                                                                                                                                                      |
| Product Description        | This Human Steroid Sulfatase Isozyme S (STS) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 4.68-300ng/mL                                                                                                                                                                                                                                              |
| Sensitivity                | 1.9ng/mL                                                                                                                                                                                                                                                   |
