| Category                   | Kits/Assays                                                                                                                                                                                 |
| Species Reactivity         | Human                                                                                                                                                                                       |
| Product Description        | This Human Synaptopodin 2 (SYNPO2) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids.... |
| Range                      | 0.312-20ng/mL                                                                                                                                                                               |
| Sensitivity                | 0.127ng/mL                                                                                                                                                                                  |
| NCBI                       | <a href="#">261729</a>                                                                                                                                                                      |
| UniProt                    | <a href="#">Q8NFT2</a>                                                                                                                                                                      |
| Samples                    | tissue homogenates, cell lysates and other biological fluids.                                                                                                                               |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                         |
