| Product Description        | This Rat Transforming Growth Factor Beta 3 (TGFb3) ELISA Kit is a Sandwich ELISA assay that will detect and quantify the target analyte in serum, plasma, tissue homogenates, cell culture supernatants and other biological fluids.... |
| Range                      | 15.6-1000pg/mL                                                                                                                                                                                                                          |
| Sensitivity                | 5.8pg/mL                                                                                                                                                                                                                                |
| NCBI                       | <a href="#">50765</a>                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">Q9JKX3</a>                                                                                                                                                                                                                  |
| Samples                    | serum, plasma, tissue homogenates, cell culture supernatants and other biological fluids.                                                                                                                                               |
| Application Notes          | Assay Length: 3 hours.Experimental Method: Sandwich                                                                                                                                                                                     |
