| Category                   | Kits/Assays                                                                                                                                                                                                                |
| Application                | ELISA                                                                                                                                                                                                                      |
| Species Reactivity         | Human                                                                                                                                                                                                                      |
| Product Description        | This Human Von Willebrand Factor (vWF) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in plasma and other biological fluids . This product is for Research Use Only.... |
| Range                      | 1.56-100ng/mL                                                                                                                                                                                                              |
| Sensitivity                | 0.53ng/mL                                                                                                                                                                                                                  |
| NCBI                       | <a href="#">399544</a>                                                                                                                                                                                                     |
