| Application                | ELISA                                                                                                                                                                                                                                                      |
| Species Reactivity         | Mouse                                                                                                                                                                                                                                                      |
| Product Description        | This Mouse Selenoprotein P1, Plasma (SEPP1) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product is for Research Use Only.... |
| Range                      | 1.56-100ng/mL                                                                                                                                                                                                                                              |
| Sensitivity                | 0.57ng/mL                                                                                                                                                                                                                                                  |
