| Category                   | Kits/Assays                                                                                                                                                                                                                                                    |
| Species Reactivity         | Human                                                                                                                                                                                                                                                          |
| Product Description        | The GENLISA Human Glutathione Peroxidase 1 (GPX1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy and Precision Validated again... |
| Range                      | 3.12 - 200 ng/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 1.25 ng/ml                                                                                                                                                                                                                                                     |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                 |
| Application Notes          | Colorimetric, Absorbance measured at 450nm                                                                                                                                                                                                                     |
