| Manufacturer               | Abbkine Scientific                                                                                                               |
| Host                       | Rabbit                                                                                                                           |
| Category                   | Antikörper                                                                                                                       |
| Application                | WB                                                                                                                               |
| Species Reactivity         | Bacteria, Mammal                                                                                                                 |
| Immunogen                  | Synthetic Peptide                                                                                                                |
| Product Description        | Featured Anti-His Tag Rabbit Polyclonal Antibody, specially designed for your tagged protein quantification and localization.... |
| Tag                        | His                                                                                                                              |
| Buffer                     | Liquid in PBS, pH 7.4, containing 0.02% Sodium Azide as preservative and 50% Glycerol.                                           |
| Purity                     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using specific immunogen                     |
| Form                       | Liquid solution                                                                                                                  |

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows: WB (1:5000).
