| Category                   | Molekularbiologie                                                                                                                                                                                                                                                |
| Product Description        | SPATA5L1 Human Pre-designed siRNA Set A contains three designed siRNAs for SPATA5L1 gene (Human), as well as a negative control, a positive control, and a FAM-labeled negative control. Components SPATA5L1 siRNA-1: 5 nmol (HPLC) SPATA5L1 siRNA-2: 5 nmol ... |
| Target                     | Small Interfering RNA (siRNA)                                                                                                                                                                                                                                    |
| Application Notes          | MCE Product type: Oligonucleotides                                                                                                                                                                                                                               |
