| Manufacturer               | MedchemExpress                                                                                                                     |
| Category                   | Biochemikalien                                                                                                                     |
| Product Description        | Sonlicromanol (KH176) is an orally active reactive oxygen species (ROS) modulator for the study in mitochondrial disease[1][2].... |
| Molecular Weight           | 332.44                                                                                                                             |
| Purity                     | 99.75                                                                                                                              |
| CAS Number                 | [1541170-75-5]                                                                                                                     |
| Formula                    | C19H28N2O3                                                                                                                         |
| Target                     | Reactive Oxygen Species (ROS)                                                                                                      |
| Application Notes          | MCE Product type: Reference compound1                                                                                              |
