| Product Description        | TCO-PNB ester is an amine-reactive building block used for modification of amine-containing molecule. TCO-PNB ester contains a TCO group that can undergo an inverse electron demand Diels-Alder reaction (IEDDA) with molecules containing a Tetrazine gr... |
| Molecular Weight           | 291.30                                                                                                                                                                                                                                                        |
