| Category                   | Biochemikalien                                                                                    |
| Product Description        | Hydroxy-PEG6-Boc is a PEG-based PROTAC linker that can be used in the synthesis of PROTACs[1].... |
| Molecular Weight           | 366.45                                                                                            |
| Purity                     | 99.09                                                                                             |
| CAS Number                 | [850090-09-4]                                                                                     |
| Formula                    | C17H34O8                                                                                          |
| Target                     | PROTAC Linkers                                                                                    |
| Application Notes          | MCE Product type: Reference compound                                                              |
