| Category                   | Biochemikalien                                                                                                                    |
| Product Description        | Calcium Channel antagonist 4 (compound 189) is an inhibitor of voltage-gated calcium channels with an IC50 value of 5-20µM[1].... |
| Molecular Weight           | 426.53                                                                                                                            |
| Purity                     | 95                                                                                                                                |
| CAS Number                 | [687574-49-8]                                                                                                                     |
| Formula                    | C23H26N2O4S                                                                                                                       |
| Target                     | Calcium Channel                                                                                                                   |
| Application Notes          | MCE Product type: Reference compound                                                                                              |
