| Manufacturer               | MedchemExpress                                                                                                                                                           |
| Category                   | Biochemikalien                                                                                                                                                           |
| Product Description        | SJB3-019A is a potent and novel USP1 inhibitor, 5 times more potent than SJB2-043 in promoting ID1 degradation and cytotoxicity in K562 cells with IC50 of 0.0781 µM.... |
| Molecular Weight           | 276.25                                                                                                                                                                   |
| Purity                     | 99.88                                                                                                                                                                    |
| CAS Number                 | [2070015-29-9]                                                                                                                                                           |
| Formula                    | C16H8N2O3                                                                                                                                                                |
| Target                     | Deubiquitinase                                                                                                                                                           |
| Application Notes          | MCE Product type: Reference compound                                                                                                                                     |
