| Manufacturer               | MedchemExpress                                                                                                                   |
| Category                   | Biochemikalien                                                                                                                   |
| Product Description        | (E/Z)-Ginkgolic acid C17:2, isolated from Ginkgo biloba, can bind with human dihydroorotate dehydrogenase (DHODH) tightly[1].... |
| Molecular Weight           | 372.54                                                                                                                           |
| Purity                     | 99.37                                                                                                                            |
| CAS Number                 | [102811-39-2]                                                                                                                    |
| Formula                    | C24H36O3                                                                                                                         |
| Target                     | Dihydroorotate Dehydrogenase                                                                                                     |
| Application Notes          | MCE Product type: Natural Products                                                                                               |
